Allen,

Can we take this opportunity to thank you for your performance on this project.

You erected the 45m x 30m marquee within the agreed programme despite having very little notice; your operatives have been very professional in the approach to the erection of the marquee in a customer live car park. The installation has looked good and has stood up to the use, first as 4/5 sales and 1/5 bulkstore and then internal wall removed to make total sales area.

Your swift reaction to the initial teething problems was done the same day and this has made dealing with the store management easy.

Your help in making sure the removal is completed in less than a week has give Kier and the store the opportunity to have the majority of the car park back for this August Bank holiday weekend.

Thank you again on your professional approach and standards.

Yours Sincerely

Phil Tiltman
Project Manager
